## ADARA Networks Selected as Part of the Systems Made Simple Team to Support Prestigious CIO-SP3 Contract Vehicle With \$20B Ceiling

Together the Companies Will Have the Opportunity to Bid on and Support the Mission of the National Institutes of Health Information Technology Acquisition and Assessment Center (NITAAC)

SAN JOSE, CA, Jun 25, 2012 (MARKETWIRE via COMTEX) -- ADARA Networks, provider of the most advanced commercially available Software Defined Networking (SDN) and cloud computing platforms, today announced it was part of the team assembled by prime contractor Systems Made Simple (SMS) that has been selected by the National Institutes of Health's (NIH) Information Technology Acquisition and Assessment Center (NITAAC) for their Chief Information Officer -- Solution and Partners 3 (CIO-SP3) contract. CIO-SP3 is a multiple award Government Wide Acquisition Contract (GWAC) with ceiling value of \$20 billion.

The 10-year indefinite-delivery indefinite-quantity (IDIQ) contract offers IT support to any federal, civilian or Department of Defense (DOD) agency, and encompasses ten task areas, including IT operations and management, software development and digital government with the opportunity to bid on up to \$20 billion in task orders. CIO-SP3 federal agencies will be able to incorporate a systems approach into their IT services in order to achieve scientific, health, administrative, operational, managerial and information management requirements.

"ADARA is proud to leverage our extensive public sector expertise to bring our SDN technology to positively impact the national healthcare technology infrastructure," said Eric Johnson, CEO and Chairman, ADARA Networks. "As the first fully deployable production level SDN offering on the market, we will continue to support both public sector and enterprise demand for innovative technologies that will change the face of networking." ADARA's Full Stack Engine brings the power of SDN to anyone looking to better manage and deploy their current and future network resources. ADARA's SDN platform will allow any organization to quickly take the logical next step towards a virtualized data center with confidence and immediately better manage traffic flow and utilize unused resources across the entire network.

About ADARA Networks ADARA has solidified its position as an industry visionary by empowering clients to fully leverage the potential of their networks, services and systems with timeless solutions designed to connect, enhance and facilitate interactivity that brings greater productivity. Built on a foundation of superior performance and reliability, ADARA delivers the industry's most advanced platforms for Information Technology. Secure and easily implemented, ADARA solutions enable services to communicate across multiple platforms in real time, enhancing network performance and productivity for our customers and partners, ultimately driving sales and growth.
