Company is one of a select few private companies invited to speak

SAN JOSE, Calif., June 4, 2013 /PRNewswire/ -- ADARA Networks(R) , a global software company in the Software Defined Networking (SDN) space, announced that its chairman and CEO, Eric Johnson, along with members of his executive team, will present at the Stephen's 2013 Spring Investment Conference today at the Palace Hotel in New York City. The ADARA executive team panel will include Lillian Withrow, CFO, Susan Hares, vice president of technology and strategy, Steven McChesney, vice president of worldwide sales and Karthikeyan Subramaniam, chief architect.

"ADARA is honored to be one of the few private companies invited to present at Stephen's 2013 Spring Investment Conference," said Eric Johnson, chairman and CEO of ADARA Networks. "ADARA is the only company that provides production ready, fully dynamic, end-to-end SDN solutions; an entire SDN ecosystem. We offer solutions to what the market wants and needs, which is tomorrow's networking today. By developing the world's most advanced SDN and IT solutions, we are leading competitors, re-defining the SDN landscape, and constantly demonstrating the full potential of SDN."

Stephen's 2013 Spring Investment Conference will feature more than 120 private and publicly traded companies from consumer, financial services and technology verticals.

About ADARA Networks:

ADARA Networks is the industry leader in Software Defined Networking, Virtual Computing and Networking. ADARA SDN is an entire ecosystem; End-to-End, (Data Center, Network, Small Office, Home and Mobile User), Production-ready, for Service Providers and Enterprises of all sizes, and verticals. ADARA SDN seamlessly works with any and all 3(rd) party SDN and legacy products. ADARA SDN empowers customers to simultaneously and optimally financially engineer their profits while operationally managing their enterprise. ADARA SDN delivers autonomic, dynamic management of services, virtual and physical infrastructure management. ADARA SDN enables customer to create any policies, ADARA SDN dynamically creates and enforces rules and configurations, and enforces Service Level Agreement (SLA) performance.
